## Q1 About Candidates

Candidate Name	<b>Eric Henderson</b>
District	<b>32</b>
Party Affiliation	<b>Republican</b>
Campaign Website	<b><a href="http://www.electerichenderson.com">www.electerichenderson.com</a></b>

---

## Q2 What has been your personal experience with nonprofits as a board member, employee, volunteer, or donor? How do these experiences shape your policy positions? (Limit: 300 words)

I have experience in a volunteer capacity at a private college. I tutored students in need, and it helped broaden my perspective, not just on education, but as a whole. This has helped me form policy positions based on multiple viewpoints, not just my own.

---

## Q3 If elected, what would be your top three policy priorities? (Limit: 250 words)

My top three priorities are ensuring our economy continues to be prosperous, improving education through better choice and opportunity, and ensuring our communities become safer so that we can all raise our families without the threat of crime. All three issues will have some involvement with nonprofits, but within the safety issue is drugs and drug addiction. I believe we need to properly address our crack and heroin/opioid addiction epidemic, and policy solutions will undoubtedly include support and services from our nonprofit community. I look forward to this collaboration which will make North Carolina a better place for everyone.

---

## Q4 What is your position on these tax issues that affect charitable nonprofits?

Preserving or expanding tax exemption for charitable nonprofits	<b>5 (strongly support)</b>
Encouraging individuals and businesses to give generously to nonprofits serving their communities	<b>5 (strongly support)</b>

---

## Q5 What policies would you propose to promote continued job growth for private employers, including both nonprofit and for-profit business employers? (Limit: 250 words)

The easiest way to accommodate continuous job growth in any sector is to avoid, as much as possible, taxes and regulations on any and all business/nonprofit activity. My policy decisions will reflect this growth philosophy. Grants to stimulate growth in some areas can be explored, but they should be budget neutral as tax increases will limit growth in other areas.
