Four Questions for Candidates for Office in 2018

Q5 What policies would you propose to promote continued job growth for private employers, including both nonprofit and for-profit business employers? (Limit: 250 words)

Healthcare for All; this will take the burden off of private employers, nonprofits and for-profit business employers - as they will no longer have to fund healthcare costs for their employees. Their employees will be healthier due to preventive care and less stress and will miss less days at work. Also it will reduce the cost and number of claims for worker's compensation, due to injuries on the job.
