Q1 About Candidates

Candidate Name	David Ulmer
District	NC House 40
Party Affiliation	Libertarian
Campaign Website	www.ulmernc.org

Q2 What has been your personal experience with nonprofits as a board member, employee, volunteer, or donor? How do these experiences shape your policy positions? (Limit: 300 words)

Since taking over as Chair of the Wake County Libertarian Party I have worked hard to make sure our members understand the importance of working in the community. At least ten times a year we participate in a group charity event. We have worked with the Inter-Faith Food Shuttle, Habitat for Humanity and the Salvation Army. These activities have been good for the party. I have found many members truly enjoy being out in the community and contributing. I am also a regular donor to Meals on Wheels here in Wake County.

Q3 If elected, what would be your top three policy priorities? (Limit: 250 words)

I will work to ensure parents have as much control as possible when it comes to their child's education. We need public schools that have more flexibility and more decisions driven at the local level. We need to eliminate healthcare regulations like Certificate of Need laws that drive up costs. We need to eliminate unnecessary regulations like the barrel limit which forces our NC craft brewers into unfair contracts with politically connected distributors. In summary; Education, Healthcare and the Economy.

Q4 What is your position on these tax issues that affect charitable nonprofits?

Preserving or expanding tax exemption for charitable nonprofits **5 (strongly support)**

Encouraging individuals and businesses to give generously to nonprofits serving their communities **5 (strongly support)**

Please add any comments about tax policies that affect nonprofits. (Limit: 250 words):

Private charities are often more efficiently managed than government run programs. They also tend to be more responsive to local needs. It is important that charities remain the first line of defense for helping those in need. There is no need to tax an organization that is working in the community and funded through private donations. We should also ensure unnecessary regulations are not stopping charities from being successful.

Four Questions for Candidates for Office in 2018

Q5 What policies would you propose to promote continued job growth for private employers, including both nonprofit and for-profit business employers? (Limit: 250 words)

I will support policies that have consistently proven successful in helping communities prosper. I will support a diverse and quality educational system to include both K-12 and higher education. I will support opportunities for vocational training and remove unnecessary licensing requirements. I will work to reduce healthcare costs which is important for all employers.
